

SFB 680

Molecular Basis of Evolutionary Innovations

Molekulare Grundlagen evolutionärer Innovationen

Thursday, April 23, 2009

TIME	SPEAKER	TITLE
18:00 - 18:10	Michael Lässig	<i>Intro</i>
18.00 – 18.50	Wolfgang Werr	Evolution of the WOX gene family
18:50 – 19:30	Martin Hülskamp	"The trichome patterning network: functional redundancies and diversification as an analysis tool for the evolution of the network"
	<i>Dinner</i>	

VENUE: Institute of Genetics, Zuelpicher Str. 47, ground floor, lecture hall

Friday, April 24, 2009

TIME	SPEAKER	TITLE
9:00-9:40	Matthieu Reymond	Molecular analysis and evolutionary history of an epistatic interaction leading to incompatibility.
	<i>Coffee</i>	
10h00-10h40	George Coupland	Evolution of annual and perennial life histories in the <i>Brassicaceae</i>
	<i>Coffee</i>	
11h00-11h40	Juliette de Meaux	Adaptive evolution in gene networks controlling seed dormancy in <i>A. thaliana</i>
12:40	<i>Lunch</i>	

VENUE: Institute of Genetics, Zuelpicher Str. 47, 4th floor, lecture hall
